

The dos and don'ts while tickling children

Dos

1. Stop when they say "no" or "stop it" or keep pushing you away.
2. Ask for their consent first by saying phrases such as "here come the tickles" and only proceed if the response is positive.
3. Tickle them lightly without putting much pressure.

Don'ts

1. Don't go tickling other people's children.
2. Don't tickle near their private parts since it is inappropriate and gives a wrong message that such a touch is okay.
3. Don't tickle them under their clothes.
